

# OUR STORY - 10 Y Peace

Once upon a time there was a group which was really interested in how to work with peace; yes, and these people wanted to exchange, to talk about peace and to develop projects how to promote peace; yes and since all the people in this group came from many different countries in Europe, they had different languages, they liked different things, and they understood, that peace is not harmony, but dealing with differences; yes and they tried to figure out ways to disseminate and to promote their goals and their tools; yes and all have stories about what they do in their organizations, they have new methods, connections and they appreciate new positive experiences; yes and with these stories, experiences, tools, methods and feelings they started to build and plan new ways to work for peace; yes and they tried to follow their experiences and feelings, and tried to refresh their imaginations about peace and living and working together, and tried to reflect on their personal lives; yes, and at their last meeting they were in the coffeshop, drinking coffee and sharing experiences and giving each other enough space to listen to each other; yes, and if they have not passed away they are still alive.
