

PEACE MARKET

The **Peace Market** is a Hungarian idea about how we can **present** the **peace, non-violence, and peace education** for average people or how we can **build** a **network** or **share experiences**.

The PEACE MARKET was in Budapest, 3rd of September.

That's why organizers had advertised this event on flyers, in news, and on the internet, and invited Hungarian organizations to join to the Peace Market.

Twelve stands:

- welcomed visitors,
- and spoke about activities,
- human rights,
- methods in peace education
- or sustainable development.

Although it was a small event, every participant and visitor enjoyed the **games**, the **conversations** and they got a lot of **information** about peace.

Summary:

- 11 stands
- 30 exhibitors
- 6 actors
- 2 musicians
- more than 30 visitors

Visitors answered a **poll** which will help us to plan the next event.

Finally, the event is closed with the performance of **Pepita Playback Theater**.
